

**3rd World Congress on
Biotechnology**

September 13-15, 2012 Hyderabad International Convention Center, India

Posters

	Hall-1 & 2	Day 1	September 13, 2012
P-01	New developments in <i>Yarrowia lipolytica</i> yeast expression system and its application to genetic engineering of heterologous proteins <i>Catherine Madzak, French National Institute for Agricultural Research, France</i>		
P-02	Enzymatic modification of chitosan using chitin deacetylase isolated from <i>Bacillus cereus</i> <i>Ritu Raval, Manipal Institute of Technology, India</i>		
P-03	Effect of micellar solubilization technology on the anticancer activity of dasatinib: A study on the in vitro survival of cell lines <i>P-Durga Maheswari, Natco Pharma Limited, India</i>		
P-04	Optimization of process parameters of hydraulic press for coconut oil yield using RSM and artificial neural networks <i>Janardhan N, GITAM University, India</i>		
P-05	Synthesis of chiral alcohols from prochiral ketones by using biocatalyst <i>Ch. Sreelakshmi, Indian Institute of Chemical Technology, India</i>		
P-06	The determinate and indeterminate nodulated legumes of Jammu province and future insight in rice genome manipulation <i>Deepu Pandita, Government Education Department-Jammu, India</i>		
P-07	Effects of trivalent arsenic toxicity on germination, seedling growth and enzyme activity in <i>Vigna radiata</i> <i>Sayan Bhattacharya, University of Calcutta, India</i>		
P-08	Genetic transformation of tomato with cry2AX1 gene for resistance to fruit borer <i>N Balakrishnan, Tamil Nadu Agricultural University, India</i>		
P-09	High performance liquid chromatographic method for determination of garenoxacin mesylate in pharmaceutical dosage form <i>G N Supriya, Roland Institute of Pharmaceutical Sciences, India</i>		
P-10	Developing a statistical model for fermentative hydrogen production <i>P Karthic, National Institute of Technology, India</i>		
P-11	Synthesis of ecofriendly silver nanoparticles from collagen of fish waste (<i>Catla catla</i>) <i>Ramya R, Lady Doak College, India</i>		
P-12	Hydrolytic enzyme production by marine yeasts isolated from Arabian Sea <i>Savitha K-Koilery, Mahatma Gandhi University, India</i>		
P-13	Discovery of novel anti-cancer activity against hela cell lines by virtual screening and MTT assay <i>G Ratnavali, SRM University, India</i>		
P-14	Novel acridinedione derivatives: Design, synthesis, SIRT1 enzyme and tumor cell growth inhibition studies <i>Mallika Alvala, Birla Institute of Technology and Sciences- Pilani, India</i>		
P-15	Novel approach in validation of adventitious virus removal by virus filtration <i>Janardhan N, GITAM University, India</i>		
P-16	Appraisal of conjugated linoleic acid production by probiotic <i>Pediococcus</i> spp-GS4 <i>Vinay Dubey, VIT University, India</i>		
P-17	Study on shelf life of liquid smoked <i>Catla</i> (<i>Catla catla</i>) <i>S Reginold Jebitta, Karunya University, India</i>		
P-18	Tea polyphenols-loaded PLGA nanoparticles: Synthesis, characterization and protective effect against induced DNA damage in vivo <i>Priyanka Bhatnagar, Institute of Genomics and Integrative Biology, India</i>		
P-19	A study on the possibility of identification of <i>Phlebotomus caucasicus</i> and <i>Phlebotomus-mongolensis</i>, vectors of zoonotic cutaneous leishmaniasis, base on ITS2 rDNA by PCR-restriction enzyme <i>Alireza Zahraei, Banaras Hindu University, India</i>		

- P-20** Discovery of new small molecule inhibitors of the Hepatitis C virus RNA-dependent RNA polymerase: Pharmacophore modeling, 3D-QSAR studies and high-throughput screening
J T Patrisha, Birla Institute of Technology and Sciences, India
- P-21** Isolation and evaluation of phyto-compounds against cancer and expression analysis of related genes in cell lines
Shivakanth Chintalapally, Osmania University, India
- P-22** GWAS: An insight in to the reproductive health of women
Mahima Gulabani, University of Delhi, India
- P-23** Hydrolytic enzyme production by marine yeasts isolated from Arabian Sea
Savitha K Koilery, Mahatma Gandhi University, India
- P-24** Invitro screening of *Pseudomonas* spp for their biocontrol potential against phytopathogens of vanilla
Athul Sandheep R, Mahatma Gandhi University, India
- P-25** Development of collagen based biomaterials from ruminant gastric wall for tissue engineering
Dayamon D Mathew, Indian Veterinary Research Institute, India
- P-26** Isolation & characterization of a strong antibacterial compound from *Datura innoxia*
Dharmendra Singh, AMITY University, India
- P-27** Analysis of chill-coma recovery in Indian drosophila species
Anami Ahuja, StemFort Regenerative Medical Center, India
- P-28** Study of fast food eating behaviour among girls living in hostels in relation to their health
Aanchal Vasudev, Lovely Professional University, India
- P-29** Immobilization of glycine max amylase onto activated woven *Bombyx mori* silk fabric
Srishti Katiyar, AMITY University, India
- P-30** Isolation and identification of *Lactobacillus* sp from milk and yoghurt, PCR amplification for the amplification of lactase encoding gene
Niti Sarat, Quality Assurance Laboratories, India
- P-31** Electrochemical DNA hybridization biosensor for typhoid detection based on electrodeposited gold nano aggregates
Anu Singh, Jawaharlal Nehru University, India
- P-32** RAPD polymorphism in *Puccinia sorghi* Schw-causing common rust of maize
Utpal Dey, Marathwada Krishi Vidyapeeth, India
- P-33** Study on the biosorption of synthetic dyes using immobilized fungal biomass and aquatic weeds
R Sivashankar, National Institute of Technology, India
- P-34** *Stigma sterol*: An important therapeutic product and its synthesis
Raksha Bawankar, VIT University, India
- P-35** Actinomycetes an emerging organism for exploring potent bioactive compounds
Nitin Jain, VIT University, India
- P-36** Identification of novel inhibitors of chorismate mutase enzyme involved in shikimate pathway of *Mycobacterium tuberculosis*: Design and In-vitro screening
Reshma Chowdary Alokam, Birla Institute of Technology and Sciences, India
- P-37** Targeting the transcription factor *Osmyb4* for disease resistance in rice
Pooja Singh, VIT University, India
- P-38** Screening of staphylokinase producing *Staphylococcus* spp.
Dipti Sinha, VIT University, India
- P-39** Discovery of new microglial cathepsin s inhibitors for the treatment of neuropathic pain: Pharmacophore modeling, 3D-QSAR and high-throughput screening
Madhu Babu Battu, Birla Institute of Technology and Sciences, India
- P-40** Comparative study of antibacterial activity of garlic and cinnamon at different temperature and its application on preservation of fish
Nandita Dasgupta, VIT University, India

- P-41** A preliminary in-vitro study of the carbon mesh as a scaffold for growth of fibroblasts
Mamta Negi, Indian Veterinary Research Institute, India
- P-42** In silico molecular modelling and docking studies on leukocidin LukD in *Staphylococcus aureus*
Nidhina N, Central Food Technological Research Institute, India
- P-43** Activated sludge process for the treatment of sugar industry effluent
Sujitha Suruliandavar, St Michael College of Engineering & Technology, India
- P-44** Time dependent and spectrophotometric analysis of blood clotting property of marigold leaf extract and comparative study of its antibacterial activity
Shivendu Ranjan, VIT University, India
- P-45** *Prunus armeniaca* L: A novel source of β -Glucosidase
Mohammad Asif, Himachal Pradesh University, India
- P-46** IN- Silico studies of novel TTF protein related to *Mycobacterium tuberculosis*
Kiran Kumar Mustyala, Nizam College, India
- P-15** Antibacterial activities of different extracts of *Holoptelea integrifolia* leaves
Kavitha Alli, Jawaharlal Nehru Technological University Hyderabad (JNTUH), India
- P-48** Study on conversion of digestible starch to resistant starch in rice (Ir8) and finding its resistant starch value
N Renu Priya, Karunya University, India
- P-49** Green synthesis of gold nanoparticles by using plant leaf extract and their application in lipase immobilisation
Rasika Kulkarni, University of Pune, India
- P-50** Prevalence of multi drug resistant *E.coli* from fast food and environmental samples
Pavithra M, VIT University, India
- P-51** Effect of mass transfer and characterisation of aeration & agitation in xanthan gum production using oxygen vector
K Vasantharaj, SASTRA University, India
- P-52** Biochips-Nanobiotechnology: Biochips connecting to the DNA computers-A tool for biomedical application
Krithika Shankaran, SASTRA University, India
- P-53** A novel role of JDP2/miR-9 axis in developmental megakaryocytopoiesis
Ravinder Kandi, University of Hyderabad, India
- P-54** Immobilization of pectinase enzyme on ionic pullulan gel
Shrestha Sinha Ray, VIT University, India
- P-55** Design and assay of inhibitors for pathogenic bacterial DNA gyrases
Renuka J, Birla Institute of Technology & Science, India
- P-56** Extractive spectrophotometric methods for the determination of Tamsulosin
Soujanya Pasumarthi, Koneru Lakshmaiah University, India
- P-57** A novel role for miRNA let-7b target FZD4 in the regulation of developmental megakaryocytopoiesis
Rambabu Undi, University of Hyderabad, India
- P-58** Development of pantothenate synthetase inhibitors for mycobacterium tuberculosis infection: Design and enzyme inhibition studies
Brindha Devi P, Birla Institute of Technology and Sciences, India
- P-59** Pharmacophore based virtual screening and building of 3D-QSAR in the discovery of new Cathepsin K inhibitors
Sridevi Kondepudi, Birla Institute of Technology and Sciences, India

- P-60** Bandages from microbial cellulose
Niharika Srivastava, Vellore Institute of Technology, India
- P-61** DFT studies of ferulic acid derivative, FA15 using computational approach
Naresh Kumar, Indian Institute of Technology Roorkee, India
- P-62** Differentiation of sheep and goat strains of *Mycobacterium avium* subsp paratuberculosis by Multiplex PCR on Large sequence polymorphisms
Radhika Syam, Indian Veterinary Research Institute, India
- P-63** Use of statistical and computational intelligence based optimization technique to increase streptokinase production
Pavan Kumar, Indian Institute of Technology Roorkee, India
- P-64** Production, purification and characterization of pectin lyase from *Byssoschlamys fulva* MTCC-505
Pankaj Kumari, Himachal Pradesh University, India
- P-65** RAPD markers for identification of cytoplasmic genic male sterile and restorer lines of pigeon pea
Waseem Sheikh, Sardarkrushinagar Dantiwada Agricultural University, India
- P-66** Molecular evidence for association of a begomovirus and betasatellite with a recently emerged leaf deformity disease of Sunn-hemp in eastern India
P Spoorthi, National Bureau of Plant Genetic Resources, India
- P-67** Enhanced anticancer effect of tea polyphenols loaded PLGA nanoparticles in Ehrlich's ascites tumor model
Sanjay Mishra, Indian Institute of Toxicology Research, India
- P-68** Effect of compost derived from decomposed fruit wastes by effective microorganism (EM) technology on plant growth parameters of *Vigna mungo*
R S Arvind Bharani, Sathyabama University, India
- P-69** Training technology users is waif
Marzie Adel Mehraban, Isfahan University of Medical Sciences, Iran
- P-70** Synthesis and activation of immobilized beads by natural dye extracts
Sanjay Singh, Vellore Institute of Technology, India
- P-71** Increasing the efficacy of giant knotweed for improving crop yield
Pushkar Tatiya, SRM University, India
- P-72** Regenerative nanomedicine 'dendrimer' in blood-brain barrier drug delivery and targeted therapy of cerebral palsy
Manasa Subbarao, University of Mysore, India
- P-73** Expression, purification & interaction of mitochondrial trypanothione and trypanothione peroxidase from *Leishmania donovani*
Shashi S Suman, Rajendra Memorial Research Institute of Medical Sciences, India
- P-74** Utilization of renewable agricultural residues for solute and enzyme from newly isolated halophilic bacteria
Pooja Shivanand, National Institute of Technology, India
- P-75** Development and validation of poly protein vaccine candidate against leishmania in human
Mohammad Zand, Jawaharlal Nehru Technological University Hyderabad (JNTUH), India
- P-76** Culture-dependent diversity of actinomycetes in Indian solar salterns
Polpass Arul Jose, Madurai Kamaraj University, India
- P-77** Phytoremediation of dye effluent using different aquatic plants in kadodara (dist-surat) region by rhizofiltration technique
Avadhesh Kushvah, Uka Tarsadia University, India
- P-78** Synthesis and phytotoxicity evaluation of biologically and chemically synthesized silver nanoparticles
Sindhu Priya Dhas, VIT University, India
- P-79** Lignocellulosic waste conversion into biofuel
Lalit Kumar, Indian Institute of Technology Roorkee, India

- P-80** Bioaccumulation of Cr (VI) by using marine yeast isolates
Ketakee Mahajan, University of Pune, India
- P-81** Preparation of curd (Dahi) in the presence of different Prebiotic sources and study of their effect on Physiochemical and Microbiological properties of the curd
Shreya Mehrotra, VIT University, India
- P-82** Antibiotic susceptibility and determination of Minimum Inhibitory Concentration (MIC) of potent antibiotics used against *Staphylococcus* spp-isolated from raw milk
Ankita Shrestha, Utkal University, India
- P-83** Micro-organisms for macro needs: Biodiesel from microalgae
Abhishek Tomar, Sagar Institute of Science and Technology, India
- P-84** Micropropagation of *Jatropha curcas* for effective bio-diesel production
Sathianachiyar Sethuraman, Madurai Kamaraj University, India
- P-85** Possible cure of Type-1 Diabetes through stem cell induced islet cell transplantation
Shashi Bhushan, AMITY University, India
- P-86** Biotechnological tools: A new strategies for biodegradation of leather industry waste effluent
Amar Jyoti Das, Babasaheb Bhimrao Ambedkar University, India
- P-87** Potential role of diclofenac sodium in inducing biochemical changes in the testes and liver of mice
Deepak Mohan, Himachal Pradesh University, India
- P-88** Evaluation of RIL's population using UMI 79 x UMI 936(w) for tagging downy mildew resistance in maize
Saykhedkar Gajanan R, Tamil Nadu Agricultural University, India
- P-89** *Cinnamomum zeylanicum* Blume: A potential antifungal agent against early blight (*Alternaria solani* NCIM 887) infesting tomato (*Lycopersicon esculentum* Mill)
Gauri Yeole, Naturally Yours Biotech, India
- P-90** Production of recombinant fusion protein 'fliglo': flhH gene of *Escherichia coli* O157: H7 tagged with gfp gene
Priyanka B, Mangalore University, India
- P-91** Regenerative nanomedicine 'dendrimer' in blood-brain barrier drug delivery and targeted therapy of cerebral palsy
Kousalya R, University of Mysore, India
- P-92** Detection of *Cyclospora*, *Microsporidia* and *Cryptosporidium* by direct microscopy and PCR in stools specimens in northwest Iran
Shahrokh Izadi, Banaras Hindu University, India
- P-93** Applications of dental pulp stem cells (dpSC) in treatment of myocardial infarction
N K Srilasya, Chaitanya Bharathi Institute of Technology, India
- P-94** Computational study of novel target protein RA1 for Rheumatoid arthritis - Design of new lead
V Santhiprada, Nizam College, India
- P-95** Introgression of the low phytate (*lpa2*) traits into elite maize inbred through marker assisted backcross breeding
P Tamilkumar, Tamil Nadu Agricultural University, India
- P-96** Floral dyes: An eco friendly and cost effective alternative for the synthetic textile dyes
C Monica, K.S. Rangasamy College of Technology, India
- P-97** Genotoxicity of hierarchical web of carbon micro-nano fibers
Mohammad Ashfaq, Indian Institute of Technology Kanpur, India
- P-98** Anti-bacterial activity of total flavonoids isolated from *Portulaca oleracea* L
Hanumantappa B Nayaka, Gulbarga University, India
- P-99** Green synthesis of Au-Ag nanocomposites and their anti-biofilm activity
Sandeep Newase, University of Pune, India
- P-100** Role of nanoparticles in the drug delivery system
Mohammad Athar, Babasaheb Bhimrao Ambedkar University, India

Hall-3 Day 2 September 14, 2012

- P-101** C-Monica, K.S-Rangasamy College of Technology, India
S-Sowmya, Yenepoya University, India
- P-102** Green synthesis of gold nanoparticles by using *Acinetobacter* sp and their antibiofilm activity
Narendrasing Rajput, University of Pune, India
- P-103** Adventitious root culture in *Podophyllum hexandrum* Royle (syn-P-emodi Wall-Ex Hook.f-& Thomas) - An important medicinal plant
M Rajesh, Bharathidasan University, India
- P-104** Interaction studies of novel antagonists for tuberculosis-An Insilco study
Anuradha Vippala, Nizam College, India
- P-105** To study the mechanism of the formation of controlled Ag nanoparticles using *E.coli*
Vibha Saklani, AMITY University, India
- P-106** Evaluation of antioxidant and anticancer potential and identification of polyphenols by RP-HPLC in *Michelia champaca* flowers
V Nagavani, Andhra University, India
- P-107** Discovery of novel leads as dual acting inhibitors of acetylcholinesterase using pharmacophore modeling, docking consensus and 3D-QSAR studies for Alzheimer's disease
Elvis A F Martis, Bombay College of Pharmacy, India
- P-108** Exploring endophytic diazotrophic bacteria as potential plant growth promoters and biocontrol agents of rice sheath blight disease
Shabanamol S, Mahathma Gandhi University, India
- P-109** Characterization of buffalo *Esx-1* gene: An X-linked homeobox protein
N Vijay, Indian Veterinary Research Institute, India
- P-110** Title:Evaluation of in vitro angiotensin-converting enzyme inhibitory activity of *Psidium guajava* Linn-leaf extract and a study on enzyme kinetics
Jomon Sebastian, Sree Buddha College of Engineering, India
- P-111** Biotechnology of the honey bees: Morphometric analysis, floral rewards and floral calendar of the Asiatic honey bee *Apis cerana* in andhra pradesh, India
N Govinda Rao, Andhra University, India
- P-112** Transfer and expression of tobacco osmotin (*Tbosm*) conferred fungal disease resistance in Indian soybean
K Subramanyam, Bharathidasan University, India
- P-113** Meta analysis of eugenol synthase-I in *Ocimum basilicum*
Raj Kumar Rai, VIT University, India
- P-114** Isolation and characterization of *Bacillus* isolates to determine their mechanisms of antagonism against *Fusarium solani* in vitro
Faheem Ahmad, North-West University, South Africa
- P-115** Investigation of a pantropical weed, *Phyllanthus amarus* schum and thonn for a medicinally important molecule- quercetin
Krishnaveni Iyengar, L.A.D and Smt.R.P College for Women, India
- P-116** Study of poly (ethylene terephthalate) nanocomposites for biomedical application
Pravin N Nikam, Institute of Chemical Technology, India
- P-117** Production of biodiesel fuels from Non-Edible oils using two-step catalyzed transesterification
M Mathiyazhagan, Bharathidasan University, India
- P-118** Production and partial characterization of a thermostable amylase from *Bacillus firmus* strain isolated from bhairon ghati of trikuta hills
Reena Singh, Shri Mata Vaishno Devi University, India
- P-119** Liver as target organ of carcinogenesis by xenobiotics
Rajesh K Bhaskar, M G University, India

- P-120** Chemotherapy in the treatment of experimental visceral leishmaniasis caused by *Leishmania donovani* using chromenochalcones
Rahul Shivahare, Central Drug Research Institute, India
- P-121** Modeling of PINK1 protein and detection of protein-protein interaction with other mitochondrial proteins
Priyanka Purkayastha, Birla Institute of Technology & Science, India
- P-122** Complete screening of the *Moringa oleifera* leaf for different therapeutic applications
Subhasish Sahoo, Birla Institute of Technology & Science, India
- P-123** Tissue engineered fish swim bladder scaffolds for repair of full thickness skin defects
Remya V, Indian Veterinary Research Institute, India
- P-124** Impact of Nanotoxicity on cell culture and DNA
Sanjay Reddy Akula, Samskruti College of Pharmacy, India
- P-125** The biological approach to enhance durability in concrete structures
V Srinivasa Reddy, Jawaharlal Nehru Technological University Hyderabad (JNTUH), India
- P-126** In silico studies on flavonoids against prostatic acid phosphatase receptor
M P-Swetha, Central Food Technological Research Institute, India
- P-127** Designing of small molecule inhibitors for NMPRTaseas anticancer leads using insilico approach
Venkat Koushik Pulla, Birla Institute of Technology and Sciences, India
- P-128** In vitro evaluation of modified polyethylenimine polymers as efficient carriers for nucleic acids
Manohar Mahato, Institute of Genomics and Integrative Biology, India
- P-129** A dual purpose biological model for oxidation of sulphide waste and generation of electricity
Shakuntala Pillai, Dr. D.Y. Patil Biotechnology and Bioinformatics Institute, India
- P-130** Effect of heavy metals on morphology of actinomycetes
Rupali Aursang, Dr. D Y Patil Vidyapeeth, India
- P-131** To compare the therapeutic efficacy and safety of fexofenadine with chlorpheniramine maleate in the treatment of allergic rhinitis and bethmethasone, short course therapy given orally in allergic rhinitis
G Arun Jyothi, Kakatiya Medical College, India
- P-132** Possible mechanisms of different drugs of abuse with HIV in pathophysiology of NeuroAIDS and its therapeutic
Tushar Patil, Ideal College of Pharmacy, India
- P-133** Diet as a strategy for primary prevention of Type 2 Diabetes mellitus
Anu Pandita, Bee Enn College of Nursing, India
- P-134** A critical study of somatic embryogenesis in *Cucumis sativus*.L from seed cultures
Naga Koumudi Vankamamidi, K L University, India
- P-135** Isolation of *Staphylococcus* sps-from mobile phones and in-vitro study of *Mollugo cerviana* leaf extract on *Staphylococcus* sps.
E Venkata Naga Raju, Acharya & BM Reddy College of Pharmacy, India
- P-136** Cloning, purification and characterization of LdFrataxin and Ldlsd11 proteins involved in iron sulfur cluster (ISC) machinery of *Leishmania donovani* (Ld)
Amir Zaidi, Rajendra Memorial Research Institute of Medical Sciences, India
- P-137** Removal of Cr (VI) ions from aqueous solutions by cauliflower stalks and maize leaves powder
Soumitra Marathe, University of Pune, India
- P-138** RAPD Markers for genetic diversity estimation and its correlation with hybrid performance in pearl millet
Gangisetty Nagaraju, National Institute of Plant Genome Research, India
- P-139** Screening for novel clot busters from food and environmental samples
Vaibhav Sharma, VIT University, India

- P-140** Mass spectrometry identification of pathogens in various sample solutions using functionalized magnetic iron oxide (Fe₃O₄) nanoparticles
P Muralidhar Reddy, Kakatiya University, India
- P-141** Isolation of thermophile producing helicase for nucleic acid- based detection for fast diagnosis
Sreenivasan Sasidharan, University Science Malaysia, Malaysia
- P-142** Decolorization and biodegradation of sulfonated azo dye reactive violet 5 by newly isolated *Pseudomonas aeruginosa* GSM3
Mallikarjun C.B, Gulbarga University, India
- P-143** Bacteriophage as a therapeutic agent and a novel route for the synthesis of gold nanoparticles
Vishal Mahale, University of Pune, India
- P-144** Biological control of *Echinochloa crus-galli* (Barnyard grass): A major weed in rice (*Oryza sativa* L.)
G Jyothi, Sri Biotech Laboratories India Ltd, India
- P-145** RabDis: An expert system for rabbit disease diagnosis
Shilpy Shuvam, Central Food Technological Research Institute, India
- P-146** Biosurfactant mediated crude oil bioremediation through well characterized marine bacterium *Staphylococcus* spp
Senthil Balan S, Annamalai University, India
- P-115** A study on proneural genes in the development of olfactory local interneurons in *Drosophila*
Ravi Chandra K, University of Hyderabad, India
- P-148** Modulation of cadmium tolerance of *Aspergillus terreus* by ionising radiation
Dipanwita Das, University of Kalyani, India
- P-149** *Bacillus pumilus* like micro-organism: A novel and promising ectoine producer isolated from the marine niche
Chirag D Desai, Institute of Chemical Technology-Matunga, India
- P-150** Process optimization for enhanced biogas production from Bagasse
Gopinathan Chengalath, University of Calicut, India

Hall-3 Day 3 September 15, 2012

- P-151** Split application of gypsum on herb and essential oil yields of *Ocimum tenuiflorum* variety Cim-Ayu, *Cymbopogon flexuosus* variety Krishna and *Cymbopogon martini* variety Trisha
T Neelima, Chaitanya Bharathi Institute of Technology, India
- P-152** Meta analysis of eugenol synthase-I in *Ocimum basilicum*
Rashmi Dubey, VIT University, India
- P-153** Stem cell therapy in treating Osteoarthritis
V Anjana, SRM University, India
- P-154** Antimycolytic effect of quercetin dihydrate loaded electrospun nanofibrous membrane on *Candida albicans*
Priya Vashisth, Indian Institute of Technology Roorkee, India
- P-155** Ameliorative action of *Hemidesmus indicus* root extract on doxorubicin -induced cardiotoxicity
Mahsa Zarei, University of Mysore, India
- P-156** Production and characterization of monoclonal antibodies against nucleoprotein of avian influenza
Sushant Bhat, Indian Veterinary Research Institute, India
- P-157** Putative t-RNA dihydrouridine synthase from *Saccharomyces cerevisiae* (MTCC-181) as a biomarker for malignant cells
Parul Aggarwal Pruthi, Indian Institute of Technology Roorkee, India
- P-158** Biosorption of heavy metal by immobilized and dead fungal cells: A comparative assessment
Shipra Jha, AMITY University, India

- P-159** **Natural products: A molecular target for cancer prevention and treatment**
Anushree Chowdhury, VIT University, India
- P-160** **Promise of pharmacogenomics**
Mohd. Nawaz Khan, AMITY University, India
- P-161** **Meta analysis of eugenol synthase-I in *Ocimum basilicum***
Gyanendra Gour, VIT University, India
- P-162** **Feed enzymes: A biotechnological approach in poultry feed formulation**
S P Muthukumar, Central Food Technological Research Institute, India
- P-163** **Biology and biotechnological application of marine dimorphic yeasts: Yeast-Metal interactions**
Ashok Bankar, University of Pune, India
- P-164** **Engineering tolerance and hyper accumulation of heavy metals in recombinant E.coli cells by expressing PCS gene from *Leucaena leucocephala***
Merla Sri Lakshmi Sunita, Jawaharlal Nehru Technological University, India
- P-165** **Influence of enzymes on the physicochemical characteristics of papaya pulp**
Wilfred A, Central Food Technological Research Institute, India
- P-166** **Bioactivity of rhodophyta: As an ROS scavenger and anti-coagulant**
Indumathi Parimelazhagan, VIT University, India
- P-167** **A comparative study on proteomic and biochemical alterations in the cyanobacterium *Anabaena* sp-PCC 7120 under short term exposure of abiotic stresses: Pesticide, salinity, heavy metal and UV- B**
D Leshan Wannigama, Banaras Hindu University, India
- P-168** **Genetic engineering of lignin biosynthesis to improve bioethanol production from *Leucaena leucocephala***
Singam Prashant, Jawaharlal Nehru Technological University, India
- P-169** **Analysis of the HIV-1 Tat Exon 2 Gene motifs as a potent candidate for therapeutics against HIV infection**
Sneham Tiwari, CSIR-Centre for Cellular and Molecular Biology, India
- P-170** **CGPSA- Comparative Genomics Methodology for Phylogenetic and Synteny Analysis of gene families in different species**
Hukam Chand Rawal, National Research Centre on Plant Biotechnology, India
- P-171** **Polymerase chain reaction detection of *Candidatus liberibacter asiatic* associated with citrus huanglongbing**
G P Jagtap, Marathwada Krishi Vidyapeeth, India
- P-172** **Lactic acid bacteria isolated from Malaysian domestic non-broiler chicken producing antimicrobial proteins against Methicilin-resistance *Staphylococcus aureus* (MRSA)**
Tengku HaziYamin, International Islamic University Malaysia, Malaysia
- P-173** **Isolation and characterization of rhizospheric *Streptomyces* with plant growth promoting potential**
Mobolaji Felicia Adegboye, North-West University, South Africa
- P-174** **Multilevel network protection based on iris biometric**
Rajni Bala, SLIET Longowal College, India
- P-175** **Selection of aptamers against cell surface biomarkers in cancer diagnosis**
Arghya Sett, Indian Institute of Technology Guwahati, India
- P-176** **Plant regeneration in *Litsaea salicifolia* Roxb through callus culture**
G C Dev Goswami, Goalpara College, India
- P-177** **Optimization of cultivation conditions for the production of pullulan and detection of anti-oxidant and metal absorption (biosorption) properties of *Aureobasidium pullulans* BS1 newly isolated from the phylloplane of *Brassica oleracea* from chittoor and vellore**
Bishwambhar Mishra, VIT University, India
- P-178** **Treatment of organic and inorganic pollutants in wastewater by use of microorganism**
Abhinav K Srivastava, AMITY University, India

- P-179** Purification and characterization of alkaline phosphatase from *Dolichous lab-lab* and its *in vitro* dephosphorylation activity on nucleic acids
Ramya Velampati, K L University, India
- P-180** Synthesis of silver nanoparticles from leaf extract of *Mangifera indica*
Vikas Sarsar, Deenbandhu Chotu Ram University of Science and Technology, India
- P-181** Determination of viability of *pediococcus spp-gs4* after storage into hard gelatin capsule and its survival under *in vitro* simulated gastrointestinal condition
Bagad Mayur, Vellore Institute of Technology (VIT) University, India
- P-182** Molecular markers a tracking contrivance for mycorrhizal fungi
Mohd Sayeed Akhtar, Jimma University, Ethiopia
- P-183** Expression and purification of biologically active alpha toxin of *Clostridium perfringens*
Ajay Kumar Rai, Indian Veterinary Research Institute, India
- P-184** Bienzymatic bioprocess for the conversion of 2-Hydroxyisobutyronitrile into 2-hydroxyisobutyric acid
Shashi Kant Bhatia, Himachal Pradesh University, India
- P-185** Antibacterial activity of *mangifera indica* kernel extracts
Alok Prakash, VIT University, India
- P-186** Amniotic fluid stem cells in buffalo (*Bubalus bubalis*): Identification of pluripotency (oct-4, nanog and sox-2) markers, characterization and chemical induced guided differentiation into neurogenic, adipogenic and osteogenic lineages
Kapil Dev, Kurukshetra University, India
- P-187** A brief review on synthetic biology: Recreating the cells
Aparna Banerjee, Vidyasagar University, India
- P-188** Nano bio robotics application in DES treatment
Akshi Gupta, AMITY University, India
- P-189** Serum based prospective biomarkers for early detection of hepatocellular carcinoma (HCC): A proteomic approach
Shabnam Malik, Jamia Hamdard University, India
- P-190** Carotenoids: The most potent phytochemicals in nature having health promoting activities
Ravendra P. S Chauhan, AMITY University, India
- P-191** Osteogenic differentiation of cord blood stromal cells on composite polymer scaffolds
Naveen kumar Mekala, National Institute of Technology, India
- P-192** Characterization of a novel eukaryotic initiation factor 5A (eIF5A) in *Leishmania donovani*
Neelagiri Soumya, National Institute of Pharmaceutical Education and Research (NIPER), India
- P-193** Biosynthesis of silver nanoparticles using *Allium cepa* extract and evaluation of their antibacterial activity
Priti Singh, Manav Rachna College of Engineering, India
- P-194** The *In-vitro* study of antioxidant and total phenolic content of some commonly used spices
Amita Pannu, Ambala College of Engineering and Applied Research, India
- P-195** One step purification of intracellular l-asparaginase from *E-carotovora mtcc 1428* and its application
Sarita Devi, Himachal Pradesh University, India
- P-196** Importance of bioethanol and biodiesel from biomass
Priya Ahuja, Ambala College of Engineering and Applied Research, India
- P-197** Antimicrobial activity of silver nanoparticles synthesized from the bark extract of *Syzygium cumini*
Ram Prasad, AMITY University, India
- P-198** Polymer controlled delivery of therapeutic nucleic acid for the treatment of cancer
Jijnasa Bordoloi, SRM University, India

- P-199** Optimization of process parameter for bioconversion of p-hydroxybenzonnitrile to p-hydroxybenzoic acid using nitrilase activity of *Gordonia terrae*
Vijay Kumar, Himachal Pradesh University, India
- P-200** Antimicrobial potential of actinomycetes isolated from soil samples of Punjab, India
Sandeep Rana, Dolphin Post Graduate College of Life Sciences, India
- P-201** Estimation and biochemical characterization of diazotrophs in rice rhizosphere soil for their plant growth promoting traits
Lalan Sharma, National Bureau of Agriculturally Important Microorganisms, India
- P-202** Studies on immune response against a new bicistronic DNA vaccine for anthrax using the protective antigen gene (pag) and catalytically inactivated lethal factor gene (mlef)
Bincy Joseph, Indian Veterinary Research Institute, India
- P-203** Biogenic synthesis of gold nanoparticles using *Trichoderma harzianum* and their characterisation
Ravi Mani Tripathi, AMITY University, India
- P-204** Comparison of indirect based ELISA by employing purified LLO and its synthetic peptides and cultural method for diagnosis of ovine listeriosis
Shabu Shoukat, Indian Veterinary Research Institute, India
- P-205** Optimization of culture condition for production of acyltransferase activity of *Pseudomonas* sp-br1 through response surface methodology approach
Ravi Kant Bhatia, Himachal Pradesh University, India
- P-206** Evaluation of antibacterial and antifungal potential of different varieties of potatoes
Jagdeep Singh Pannu, Ambala College of Engineering and Applied Research, India
- P-207** Biotechnology for agricultural by-products utilization
Hara Prasad Sahoo, B J B Autonomous College- Bhubaneswar, India
- P-208** Determination of heavy metal stress on bacterial diversity
Soumitra Nath, Gurucharan College, India
- P-209** Thalassemia: Possible cure through gene therapy using lentiviral vector
Praveen Kant, AMITY University, India
- P-210** Management and treatment of wastewater: Towards clean environment and healthy society
Javed Ahmad, Harcourt Butler Technological Institute, India
- P-211** Microbiological and biochemical characterization of seera: A starch based bioenriched fermented food of Himachal Pradesh
Savitri Kapoor, Himachal Pradesh University, India
- P-212** Studies on detection and characterization of shigatoxigenic *Escherichia coli* (STEC) and enteropathogenic *Escherichia coli* (EPEC) associated with diarrhoea in infants in mizoram
Jubeda Begum, Indian Veterinary Research Institute, India
- P-213** Cloning, sequencing, expression and evaluation of efficacy of the antigen Devr (*Msmeg_52440*) in serological diagnostic assays
S-Radha, University of Madras, India
- P-214** Biological activity of Ascidians *Polyclinum madrasensis* (Sebastian, 1952) and *Phallusia nigra* (Savigny, 1816) from tuticorin coast of India
N-Sri Kumaran, Annamalai University, India
- P-215** The influence of *Butea monosperma* on doxorubicin-induced nephrotic syndrome in rats
Nitish Chaudhari, Bombay College of Pharmacy, India
- P-216** Potentials of sewage water treatment plant, surat by using rhizofiltration technique
Vikaskumar Shukla, Uka Tarsadia University, India
- P-217** Molecular characterization of IS407A-fl*i*P genomic region of *Burkholderia mallei*
Chandan Prakash, Indian Veterinary Research Institute, India
- P-218** Development and evaluation of DNA construct expressing nucleoprotein gene of H5N1 avian influenza virus for production of antiserum
Lekshmi S Rajan, Indian Veterinary Research Institute, India

- P-219** Assessment of antibacterial activity of some economically seaweeds from rameshwaram coastal areas of south India
Babita Kumari, Banasthali University, India
- P-300** Enhanced antibody response in laboratory animals immunized with a combination of rabies virus specific T-helper and B-cell epitopic peptides
Vinod Chandra Pandey, Indian Veterinary Research Institute, India
- P-221** Construction of broad host range vector for expression of heterologous protein in *Brucella abortus* strain 19
Justin Davis K, Indian Veterinary Research Institute, India
- P-222** Development of a secretory DNA vaccine construct encoding surface layer protein EA1 of *Bacillus anthracis*
T G Sumithra, Indian Veterinary Research Institute, India
- P-223** Isolation, identification, characterization and antibiogram of *Pasteurella multocida* isolated from pigs in mizoram with special reference to progressive atrophic rhinitis
Zomvankima Varte, Central Agricultural University, India
- P-224** Screening of commonly consumed fruit seeds for antioxidant activity for improvising human health
A Manojkumar, Kumaraguru College of Technology, India
- P-225** Effect of nano-Zno particle suspension on growth of gram (*Cicer arietinum*) seedlings
Pramod Nagar, University of Rajasthan, India
- P-226** Treatment of cancer by stem cell therapy
E Venkata Naga Raju, Acharya & BM Reddy College of Pharmacy, India
- P-227** Comparison of milk ring test with milk-ELISA for diagnosis of brucellosis
Anand Mohan, G.B Pant University of Agriculture and Technology, India
- P-228** Pectinase from marine *Bacillus subtilis*: An efficient bio scouring agent
Manasi M Joshi, Institute of Chemical Technology-Mumbai, India
- P-229** Production and purification of phytase by solid state fermentation from *Rhizopus oligosporus* MTCC 556 using agricultural wastes
Suresh S, Anna University, India
- P-230** Mi-64 : A high molecular weight Glycoprotein from *Mastobranchius indicus* (marine polychaete) demonstrated antitumor effects in in vitro and in vivo models
Mohammed Aftab Alam, University of Calcutta, India
- P-231** Biocatalysts towards ever greener for production of biodiesel from non-edible oil and comparison of fuel characteristics
Vinod Kumar, University of Delhi South Campus, India
- P-232** Identification of virulent Lactose positive vibrio species from *Nemipterus japonicus* off Visakhapatnam coast
Diana T C, Andhra University, India
- P-233** Design of immobilized packed bed cell bioreactor for effective degradation of simulated cyanide containing water
Virender Kumar, Himachal Pradesh University, India
- P-234** Screening of maize germplasm for *crtrb1* polymorphism and association with HPLC profiling for increased β - carotene content
P Dhyaneswaran, Tamil Nadu Agricultural University, India
- P-235** Salt induced changes of photosynthetic apparatus in *Chlamydomonas reinhardtii*
Satyabala Neelam, University of Hyderabad, India
- P-236** Substance P: A new therapeutic intervention in the healing of diabetic wounds
Vinay Kant, Indian Veterinary Research Institute, India
- P-237** Association of DAPK1 gene methylation with the prognosis in epithelial ovarian carcinoma (EOC) patients
AB Rashid Mir, MAMC and Associated Hospitals, India

- P-238** **Antiulcer and antioxidant potential of aqueous extracts of *Annona squamosa* and *Achyranthes aspera* in aspirin plus pyloric ligation model in rat**
P Gopinath, VIT University, India
- P-239** **Therapeutic role of recombinant *Penaeus monodon* antiviral (rPmAV) protein against WSSV in *Penaeus monodon***
Gireesh Babu P, Central Institute of Fisheries Education, India
- P-240** **Construction of infrared and green light based optical biosensor**
Rahul Singh, Lovely Professional University, India
- P-241** **Identification of toxicity mechanisms through the relationship between Chemical exposure and changes in Genome - wide Gene expression pattern by using Bioinformatics tools and databases.**
G Rajeshwari, Rajalakshmi Engineering College, India
- P-242** **Study of Mesenchymal stem cells from umbilical cord tissue- a promising approach to human future**
R Sangeetha, Rajalakshmi Engineering College, India
- P-243** **My database: Can I manage my data in self prepared database?**
Dilip G-Gore, Sai Bioinfosys Bioinformatics Research Centre, India
- P-244** **Cationic albumin grafted onto superparamagnetic magnetite nanoparticles surface used for hyperthermia**
Elham Cheraghipour, Shiraz University, Iran
- P-245** **Comparative Assessment of microbial load of the dose depended irradiated crab meat under cold preservation**
Arshad Keethadath, Sree Narayana College, India
- P-246** **Role of HSPs in ameliorating deleterious effect of thermal stress in animals**
Mehtab Singh Parmar, College of Veterinary & Animal Sciences, India
- P-247** **Removal of soil polymerase chain reaction inhibitors by addition of powdered activated charcoal**
Lucija Barbaric, Forensic Science Center- Ivan Vucetic, Croatia
- P-248** **Development of a novel CNT based coconut palm mesocarp extract composite for enhanced wound healing**
Sumit Kumar Singh, National Institute of Technology, India
- P-249** **Biochemical analysis of epicardial and subcutaneous adipose tissue - A clinical correlation with cardiovascular risk factors**
V SaravanaKumar, Sri Venkateswara College of Engineering, India
- P-250** **Influence of fungal strain *Curvularia lunata* on polyethylene waste films**
Manisha Sharma, Indian Institute of Technology Kharagpur, India
- P-251** **Production of functional fermented soybean using *Bacillus* strain FB315**
Thangjam Anand Singh, Central Agricultural Engineering and Post Harvest Technology, India
- P-252** **Isolation of transposon mutant of *Escherichia coli* with altered biofilm formation**
Akash Kumar, Indian Institute of Technology Kharagpur, India
- P-253** **Development and characterization of efficient microbial consortium for human waste biodegradation in different climatic condition**
Leeza Banu, Defence Research Laboratory-Tezpur, India
- P-254** **Formulation and quality evaluation of hot beverage nutritive soya fee as a substitute of coffee**
Sreenath Pillai, Jacob School of Biotechnology & Bio- engineering, India
- P-255** **Isolation and characterization of ovine embryonic stem cells**
P Iyya Shankar, University of Madras, India
- P-256** **Ethanol production using *Neurospora crassa* under solid state fermentation of *Ricinus communis* leaves**
S Chakri, Andhra University, India

- P-257** Microbial synthesis of the silver nanoparticles using aromatic compounds as substrate and its antimicrobial activity
Sachin V Otari, D.Y-Patil University, India
- P-258** Aluminium chloride incorporated micro porous ZSM-13 isomerization catalyst: Synthesis, characterization and application
Abhishek Dhar, University of Calcutta, India
- P-259** Identification of nematode toxic *Bacillus thuringiensis* isolates using *Caenorhabditis elegans* as a model nematode
V Balasubramani, Tamil Nadu Agricultural University, India
- P-260** Comparative homology modeling and docking of lamin A molecule and its incidence in progeria
Priyanka Narad, AMITY University, India
- P-261** Screening up of anti-inflammatory property from *Ipomea staphylyna*
Priyadarshini K, JSS College for Arts, Commerce & Science, India
- P-262** Isolation of oral bacterial flora from a colubrid snake *Lycodon aulicus* (Colubridae) and their susceptibility to antibiotics
Soumya Sucharita Mohanty, North Orissa University, India
- P-263** Solid state fermentation of *Antigonum leptopus* leaves for cellulase production from *Trichoderma reesei*
P Siva Rasagnya, Andhra University, India
- P-264** Isolation and characterization of arsenic resistance bacteria and their bioremediation implication
Preeti Gautam, Babasaheb Bhimrao Ambedkar University, India
- P-265** Development of ISSR and RAPD markers for authentication of *Centella asiatica* and *Baccopa monnieri*
Niraj Tripathi, Jawaharlal Nehru Agricultural University, India
- P-266** Molecular detection and confirmation of glanders outbreak in allahabad, uttar pradesh, India
B R Singh, Indian Veterinary Research Institute, India
- P-267** Chitosan and its Derivatives as Promising Materials for Controlled Drug Delivery
Upasana Yadav, AMITY University, India
- P-268** Anti-ulcer activity of andrographolide: Possible involvement of H⁺ K⁺ ATPase activity
Vaibhav Mishra, Central Drug Research Institute, India
- P-269** Identification and characterization of bio-remediating bacterial isolates from soil and water
Manorama Singh, Rajiv Gandhi Prodaugiki Viswavidyalaya, India
- P-270** Production of biodiesel from unconventional feed stocks
Santhosh Poojary, NMAM Institute of Technology-Nitte, India
- P-271** SETS -Solar energy trapping system
Sampath Ram P, Sri Krishnadevaraya University, India
- P-272** Natural products: A molecular target for cancer prevention and treatment
Shubhanker Dhari Singh, VIT University, India
- P-273** The need of hexavalent vaccine: Future perspectives
Kiran Kona, Andhra University, India
- P-274** Molecular characterisation of lactobacilli isolated from fermented idli batter and evaluation for probiotic potential
Jayaprabha Agaliya P, Pondicherry University, India
- P-275** Design and evaluation of oral controlled release mucoadhesive microspheres of didanosine
K Mani Madhuri, Yalamarty College of Pharmacy, India
- P-276** Transformation of cholesterol by two novel isolates of *Streptomyces* sp.
Akanksha Srivastava, Central Drug Research Institute, India
- P-277** Biotechnological strategies for enhanced production of secondary metabolites from plants
Balwinder Singh, Khalsa College Amritsar, India

- P-278** Analysis of promoter sequences from next generation transcriptome sequencing data of wheat near isogenic lines challenged with leafrust pathogen
Sneha, Birla Institute of Technology, India
- P-279** Use of a lipase from marine *Bacillus Sonorensis* as an additive in detergent formulations
Madhura Nerurkar, Institute of Chemical Technology-Mumbai, India
- P-280** Bioremediation - Comparison of degradation of petroleum hydrocarbons using pseudomonas isolated from oil contaminated soil versus pseudomonas incorporated into a vector
Jeba Samuel, Anna University, India
- P-281** Coinoculation of Rhizobium and Pseudomonas strains isolated from *Trigonella foenum graecum* (Methi) and check their PGPR potential
Ratan Singh, Babasaheb Bhimrao Ambedkar University, India
- P-282** Identification of therapeutic targets in *Leishmania donovani* and *Leishmania infantum*
Shivanjali Saxena, AMITY University, India
- P-283** Identification of lactobacillus bacteria involved in municipal solid waste leachate biodegradation
Shailendra Yadav, Jawaharlal Nehru University, India
- P-284** Biofuel production from microalgae
Chellamboli C, National Institute of Technology, India
- P-285** Structure based drug design for cytochrome-b to treat cataract
K Muthamizhi, Bharathidasan Institute of Technology, India
- P-286** Immobilization of biomolecules from aqueous solution by carbon micro and carbon nanofiber
Shiv Singh, Indian Institute of Technology, India
- P-287** Enzymatic properties of biotechnologically important industrial enzymes: Phytases
K Sravani, Criya Biolabs, India
- P-288** Bioremediation of paper and pulp mill effluents
Sabita Pokhrel, Babasaheb Bhimrao Ambedkar University, India
- P-289** Rapid and direct analysis of small molecular weight extra polysaccharides of Bacteria by Hi-Speed centrifugation coupled with nanoparticle-assisted laser desorption/ ionization (HC-Np-ALDI-MS) mass spectrometry
Gangaraju Gedda, National Sun Yat Sen University, Taiwan
- P-290** Novel acridinedione derivatives: Design, synthesis, SIRT1 enzyme and tumor cell growth inhibition studies
Ashok Kumar, Himachal Pradesh University, India
- P-291** Development of cost - effective technology for mass multiplication and delivery of *Beauveria bassiana* and *Metarhizium anisopliae* biocontrol agents
S-Vijayavani, Sri Biotech Laboratories India Limited, India
- P-292** Serum glucose and serum protein levels in *Plasmodium falciparum* infected experimental C57BL/6J mice
K Sunita, Acharya Nagarjuna University, India
- P-293** Studies on optimisation and mechanism of aerobic bacterial consortia (CN 1) on textile dye, mordant black 17 and textile effluent
A Karunya, Sathyabama University, India
- P-294** Pycnogenol ameliorates hyperlipidemia and antioxidant status in pancreas of type 1 diabetic rats
Kehkashan Parveen, Jamia Hamdard University, India
- P-295** Bacteria in cancer therapy: A new approach
Naveen Kumar Vullanki, CM College of Pharmacy, India
- P-296** Optimization of multiple shoot induction and regeneration of Indian barley cultivars
Hassan Rostami, Jawaharlal Nehru Technological University Hyderabad (JNTUH), India
- P-297** DNA barcoding: A new perspective in taxonomy
Pawan Saini, Kerala Agricultural University, India

- P-298** Studies on the production of glutamic acid by *Brevibacterium immariophilum* under solid state fermentation of citrus pulp
ChV Satya, Andhra University, India
- P-299** Antimycotic activity of polyphenols against *Candida albicans* biofilm
Suma C-Pemmaraju, Indian Institute of Technology Roorkee, India
- P-300** Synthesis, characterization and evaluation of non target eco toxic effect of Nanocomposite
S.R.V.K Varma, Sathyabama University, India
- P-301** Isolation, screening and optimization of production conditions for a novel hyperthermophillic lipase from a bacterial isolate STL-A59
Abhishek Sharma, Himachal Pradesh University, India
- P-302** Effect of chitosan based coppernano composite gel on the expression of various cytokines and growth factors involved in the healing of excisional wound in wistar rats
Anu Gopal, Indian Veterinary Research Institute, India
- P-303** Bio-Fuels
Yasaswi Dandamudi, GITAM University, India
- P-304** The state of art in mesenchymal stem cells in tissue engineering
Manjunatha Reddy, R.V-College of Engineering, India
- P-305** Bacterial community profiling in the rhizosphere of field grown GM and non-GM corn
Emmanuel W Bumunang, North-West University, South Africa
- P-306** Molecular interaction studies of Tri-methoxy Flavone with human serum albumin
Gokara Mahesh, University of Hyderabad, India
- P-307** Classification of nitrilases using support vector machine
Nikhil Sharma, Himachal Pradesh University, India
- P-308** Evaluation of Eucalyptus bark waste and corn cobs as a renewable carbon source for production of single cell oil as a biodiesel feedstock by *Aspergillus terreus* IBB M1
Kadambari K Barve, University of Pune, India
- P-309** Development of single and multi-metal adapted arsenate [as⁵⁺] grown acidithiobacillus ferrooxidans- hgm 38 towards biooxidation of arsenopyrite ore- a method for gold extraction
P G Greeshma, SASTRA University, India
- P-310** Design and expression of N-terminal constructs of *Arabidopsis thaliana* PEX5
Divya Ramkumar, University of Leeds, UK
- P-311** Employment of a repeated batch system for the biotechnological production of a renewable green sweetener
Boutros Sarrouh, Federal University of Minas Gerais, Brazil
- P-312** Biological forms, ubiquitous organisms in sewage treatment- bioremediation
Ch Gouri, GITAM University, India
- P-313** Effect of caffeine on cognitive functions and behavioral symptoms of rats
Akhilesh Kumar Saini, Banaras Hindu University, India
- P-314** Glucose Oxidase deactivation in gluconic acid production
Abhijit Rathi, Institute of Chemical Technology, India
- P-315** Insilico study of mechanism of azodye degradation in cyanobacterium *Nostoc* sp PCC7120
Nitanjay Singh, National Institute of Technology, India
- P-316** Genetic Dermatological Disease Database
Gaurav Kandoi, Delhi Technological University, India
- P-317** Primary infertility and Human Papilloma Virus genotyping
Prajakta Patil, Rashtrasant Tukadoji Maharaj Nagpur University, India
- P-318** Application of response surface methodology for optimization of removal of Lead (II) from simulated waste water using alginate immobilized Papain
Soumasree Chatterjee, National Institute of Technology, India
- P-319** Identified target in *Leishmania infantum*
Suhail Ahmad Khan, AMITY University, India

- P-320** PCR amplification for the identification of *Fusarium* sp from OMW and plant, and amplification of Catalase/Esterase encoding Gene.
Ramesh Mantri, Andhra University, India
- P-321** Nanotechnology applications in stem cells and cancer
Tejaswini Vaddi, GITAM University, India
- P-322** Caspase-3 activity as a prognostic factor in colorectal carcinoma
V Nagendra Babu, GITAM University, India
- P-323** Production of Protease from rice mill wastes by *Aspergillus niger* using solid state fermentation
T Mohammad Munawar, JNTUA College of Engineering, India
- P-324** Effect of immune pressure on Antigenic and Genetic characteristics of (H5N1) Avian Influenza
Mehnaz Qureshi, Indian Veterinary Research Institute, India
- P-325** Computational approach for optimizing inhibitors of HMG-CoA reductase
Ramakrishna Annabhimoju, Osmania University, India
- P-326** Biomineralization by biofilm producing Bacteria (Bio concrete)
G. Sai Manasa, Vignana University, India
- P-327** Vanshanudhan: A rice Gene database for geneticists and breeders
Pawan Kumar Jayaswal, National Research Center on Plant Biotechnology, India
- P-328** Nucleotide diversity in promoter of bone morphogenetic protein receptor type IB (BMPRII) gene in Indian goats
Sonika Ahlawat, National Bureau of Animal Genetic Resources, India
- P-329** Nanotechnology and its vistas in dentistry
Aparajita Sunkavalli, GITAM Dental College & Hospital, India
- P-330** FTIR analysis for investigating transitions in the biochemical compositions of indigenous algae
Durga Madhab Mahapatra, Indian Institute of Science, India
- P-331** Role of immunostimulants and gut probiotics in the shrimp, *Penaeus monodon* aquaculture at Amalapuram in Srikakulam district of Andhra Pradesh
C Manjulatha, Andhra University, India
- P-332** New defence mechanism against viruses and cancer
Arjun Muthukrishnan, GITAM university, India
- P-333** New genetic polymorphism of goat KiSS-1 gene
Rekha Sharma, National Bureau of Animal Genetic Resources, India
