

Initial Announcement

Dear Colleagues,

OMICS Group is delighted to welcome you to DoubleTree by Hilton Philadelphia Center City, USA for the Prestigious International Conference on QA, QC and Validation. Quality Control-2012 will focus on “***New Challenges and Opportunities in QA, QC and Validation Process***”. We are confident that you will enjoy the Scientific Program of this upcoming Conference.

We look forward to seeing you in Philadelphia, USA.

With Regards,

Quality Control-2012 Operating Committee

Program Announcement

Venue

DoubleTree by Hilton Philadelphia Center City
237 South Broad Street
Philadelphia, Pennsylvania 19107, USA

Accommodation

A large number of rooms have been reserved. Discounted room rates for Quality Control-2012 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Quality Control.

About Philadelphia

Philadelphia is the largest city in Pennsylvania, sixth-most-populous city in the United States and the fifty-first most populous city in the world. A commercial, educational and cultural center, Philadelphia was once the second-largest city in the British Empire (after London), and the social and geographical center of the original 13 American colonies. Philadelphia served as one of the nation's many capitals during the Revolutionary War and after. After the ratification of the U.S. Constitution, the city served as the temporary national capital from 1790 to 1800 while Washington, D.C., was under construction.

Philadelphia is central to African American history. Many of its larger suburbs such as Chester, Pennsylvania; Wilmington, Delaware; Camden, New Jersey; and Trenton, New Jersey (sometimes included in the New York metropolitan area) have African American majorities. This community has been large since before the Great Migration, and despite area civil rights gains, continues to be affected by poverty and high crime. The area, in common with most of Pennsylvania, also has a very large population of Italian Americans. Philadelphia's neighbourhoods are divided into large sections North, Northeast, Northwest, West, South and Southwest Philadelphia all of which surround Center City, which corresponds closely with the city's limits before consolidation in 1854. Each of these large areas contains numerous neighbourhoods, some of whose boundaries derive from the boroughs, townships, and other communities that made up Philadelphia County before their absorption into the city. Other neighbourhoods are defined more by ethnicity, religion, culture, or commercial reasons.

Philadelphia's architectural history dates back to Colonial times and includes a wide range of styles. The earliest structures were of logs construction, but brick structures were common by 1700. During the 18th century, the cityscape was dominated by Georgian architecture, including Independence Hall and Christ Church.
